# WORDS FROM OUR FOUNDER OF OUR COMPANY

## ADRIANO LUIZ

FOUNDER & CEO

I'm Adriano Luiz, I'm 42 years old, I'm married to the same wife for 25 years, I'm the father of two wonderful children and I'm the owner director of the company Medsea Hold Cleaning Maritime.

At the age of 21 I started working cleaning the hulls of ships, I started in a company as a general assistant, sweeping bases, with 2 years in the company I received an opportunity to handle the hydrojet which is the main part in cleaning the holds. I was approved by the company as hydro blasting 1, and soon after the company noticed my potential and called me to hydro blasting and supervise a team of 16 employees. I received an excellent proposal from a new company in Santos/SP Brazil, to supervise and hydrojetting and with much more benefits.

Until God put a dream in my heart, of founding my own company, I asked my former boss for advice and they advised me to open, that they would help me, today with almost 2 years old, I have my own company, with cutting-edge equipment, a highly qualified onboard team, a commercial team with a lot of experience, and in these long years, I have already served more than 1000 ships, and all of them approved by the surveyors, I have never had a problem with failure. We are **Medsea Hold Cleaning Maritime**, transparency, efficiency, safety, speed and your ship delivered to load the next cargoes we serve the main ports in **Brazil, north, northeast, southeast and south of Brazil**, and we have partnerships in Uruguay and Argentina we wash the bases, scrape the rust and paint the bases.
